The publication language of the journal is English.

Throughout its history, the Royal Belgian Society of Oto-rhino-laryngology, Head and Neck Surgery, the home society of B-ENT, aims to disseminate both the scientific and the clinical knowledge of otorhinolaryngology field primarily in Belgium and its regions. In accordance with this aim, publishing a scientific journal has become the number one objective of the Society. Accordingly, B-ENT contributes to the scientific memory of Belgium considering its deep-rooted history.

After 59 years, B-ENT was created as the continuation of Acta Oto-Rhino-Laryngologica Belgica and it has been continuing publication since 2005.

The aim of B-ENT is to publish original research papers of the highest scientific and clinical value in otorhinolaryngology, head and neck surgery and their related fields. The journal also publishes reviews, rare case report that include a concise review of the literature, protocol papers of innovative clinical trials in the field, clinical pearls, interesting images in ENT-HNS, letters to the editors, and papers presented at the meetings of the Royal Belgian Society of Otorhinolaryngology, Head and Neck Surgery.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested or working in otorhinolaryngology, head and neck surgery fields.
